Mr. Lee Peters, Plant Engineer
Excel Industries, Inc.
200 South Ridge Road
Hesston, Kansas 67062

Re: EPA Identification Number KSD007237290

Dear Mr. Peters:

Your facility previously notified the U.S. Environmental Protection Agency on EPA Form 8700-12 that you are a Kansas hazardous waste treatment, storage and disposal facility. Subsequently you submitted an amended notification to EPA indicating you were a generator only. As you might be aware, Kansas received Interim Authorization on September 17, 1981, to conduct the state hazardous waste program in lieu of the federal program. Therefore, based upon all the correspondence you have mailed to KDHE and EPA we have acted on and amended your status.

Your facility is now considered a generator of F003 and D002 wastes only. This change in your status is effective immediately. All questions or correspondence concerning your status, should be directed to this office.

Sincerely yours,

Division of Environment

Vivek Kamath
